STUDY IN GREECE
GET A BRITISH DEGREE!

welcome to AAS College

AAS COLLEGE
Top quality British
education

AAS College offers top quality British education and degrees in undergraduate and postgraduate level.

AAS was established in 1990 and today is one of the biggest international colleges in Thessaloniki. It is well-known for its high standard delivered education.

At AAS we understand that in order to reach your full potentials, you need a modern, friendly and inspiring environment. This is the reason why we constantly invest in our premises and resources. High-tech computers, functional classes with all necessary visual aids and equipment is there to help you with your studies. You study and practice at fully equipped computer studios, design studios, drawing class, lecture class and amphitheater, while you can enjoy and relax at the College's cafe.

Our library is one of the biggest in the city and is fully updated. Furthermore, because the collaboration with British universities you enjoy free access to e-libraries throughout your studies. You will participate in numerous competitions during your study.

The high number of awards that our students achieve in national and international competitions makes us really proud.

During your study, you also enjoy cultural visits, real projects, work placements, exhibitions and study-visits to Europe.

AAS is an excellent choice for you who want to make a difference in the fields of design, communication, fashion, business, hospitality and computing. You are trained according to the British educational system and you are prepared to answer all the challenges in the international market. You follow the same curriculum, the same programme and you obtain the same Diplomas, Bachelor or Master Degrees as the students at British universities. You get the same top quality British education. You keep updated with all international trends in design and business.

When it comes to studies, make the smart choice! Choose top quality British education, in a top quality Mediterranean environment, at lower tuition fees than the UK Universities!

Join us now at AAS College in Thessaloniki!

Why to study at AAS

We think there are many reasons to choose AAS College to study:

1

Study British programmes and award British Degree. Be part of the international community of the partner British University.

2

Be part of a specialist creative community where you will be encouraged to develop an independent and committed approach to your work.

3

Have access to the full range of dedicated design facilities of a learning specialist institution.

4

Develop your personal style and push the boundaries of creativity in our creative studio space that reflects the professional world of design. Exhibit your work in our final year Degree Show.

5

AAS has one of the largest specialist libraries in the country.

6

Be taught by lecturers whose teaching standards are among the best in the whole Europe.

7

All our most recent graduates have been rated "excellent" in the workplace environment, placing the AAS in the top of Higher Education in Art & Design

8

Be enriched your learning by cultural studies, real projects, work placements, exhibitions and study visits in Europe.

9

Be here one of the hundreds, not thousands. We proud ourselves on the personal attention we give to our students.

10

Be surrounded by a dynamic and cosmopolitan city as Thessaloniki is, its countryside and wonderful coastline.

AAS academic staff

Academic faculty
Personal interest to students

We continue our commitment to nurturing creative and lateral thinking and the development of original ideas.

The tutors who teach in AAS are not 'appointed'. They were selected among the best ones. Each tutor is an acknowledged professional in his/her field and has got rich professional experience. All of them have university education in Greece and renowned universities abroad. Most of them have completed Master and PhD Degrees.

Nevertheless, apart from the skills mentioned above, the management of AAS believes that the tutor's love and will to communicate his/her knowledge and experience to the students is the necessary prerequisite for the college's co-operation with a tutor. The quality of knowledge acquired by our students and their creative cooperation with the tutors are reflected upon their achievements every year.

The tutors of each course participate at least once a month in meetings, in which the chairman is the course leader and they discuss about the acceptance and understanding of the project briefs and assignments by the students, the organisation of the critics -presentations, the progress of

the students, the attendance, the assessment criteria, the assessment process, the feedback, etc.

The teaching staff is very important in the organisation of AAS courses but on the other hand, our students have an important role in it. We take their points of view and their critique into account. We give them the possibility to express their aspects through:

- Meetings of each course team with student representatives twice a year, at the end of each semester.
- Module evaluation questionnaires, in which each student places his/her tutors, the way of assessment, the quality of the project briefs, the college's resources and premises and suggests ways of improvement.
- Meetings with his/her personal tutor, who is responsible for the student's progress.
- Meetings with the course leader, who is responsible for the organisation of the course.
- Meetings with the academic head of College, who is responsible for the administration for the matters of quality and organisation of all courses that are run at AAS College.

AAS premises & resources

Facilities and resources
Modern, purpose
– built university
campus

AAS College is set in a modern, purpose – built university campus. Students learn in specially designed lecture rooms and theatre, laboratories, design studios and in flexible teaching spaces. Individual and group study spaces allow students to work alone or collaborate on projects.

Our IT infrastructure is a student portal leading to all on-line resources, lecture rooms equipped with interactive whiteboard facilities, access to 300,000 UK e-books and e-journals and full wireless broadband across campus. This means students have the opportunity to study in an environment that suits them, whether it's in our library or in social areas on campus. All on-line facilities can be accessed off campus anywhere in the world through the internet

Lecture Rooms
At AAS we succeed in maintaining a unique balance between theory and practice. Our students on degree programmes are encouraged to think about the context of their work. There are many lectures that support the projects

and they run at the same time with them. It's an amazing mix of practice and theory and we are very proud of it. These lectures take place in specific rooms which is equipped with all the necessary visual aids (projection, screens, TV, DVD player, speakers, interactive blackboards, etc.).

Computing & Digital Resources
A host of computing and digital resources are available across the AAS to enable you to develop your skills. In computer laboratories you will work with Macs and PCs for graphics or general design work, video equipment, and scanning and printing facilities.

We provide core and specialist software for specific disciplines including Adobe In Design, Photoshop and Illustrator; Macromedia Dreamweaver, Premiere, 3D Studio Max, Archicad, ArtLandis, Autocad, Solidworks, Stop Motion Pro, After Effects and others. All our facilities are networked for full internet access and you will be given an email account allowing you to log on to the network for use throughout your time with us.

Library & Learning Services

Despite the advancement of the electronic technology, publications (books and periodicals) still constitute an irreplaceable source of knowledge, information or even arousing creativity not only for the student but also for the future professional. In AAS, being aware of the meaning of publications, we initiate the student into systematically using books and specialized periodicals during the years of their studies. And something more: we encourage the students to seek ideas for their projects in these sources.

The books and the periodicals which concern matters of art and design constitute specialized publications and therefore are not available in public libraries. Usually, their high cost makes the purchase of such publications impossible for students. For the tutoring of our students we have created one of the most updated libraries (more than 7,000 titles) with books and periodicals concerning matters of art and design.

In the library there is also a study room with computers for research on the internet, as well as a printing corner.

Because of our franchise collaboration with British universities our students have access to e-libraries which provide unlimited sources for research and knowledge.

Design Studios & Workshops

All studios are equipped with ergonomic designing tables and chairs, where needed. They are also equipped with big tables for project and portfolio presentations. They are equipped with projectors and screens and Macs or PCs or both depending on the course needs.

Fashion Design studios consist the ideal environment for future designers. The arrangement and functionality of study spaces help towards the development of our students' imagination and creativity. They are luminous and are equipped with

- Sketching and model design workshop
- Computer labs
- Pattern making workshop
- Sewing labs with sewing machines, where students create their collections

In Animation Production studio the students find all the necessary equipment: Cannon cameras, PCs, stop motion pro software, background of suitable colours, special tables, lights, armatures etc.

Advanced Diploma

SQA ADVANCED QUALIFICATIONS

Diploma to Degree

A pathway to university and further study

SQA Advanced Qualifications do not just qualify for career development they can also enable advanced entry into many undergraduate degree programmes in universities and Higher Education Institutions across the world.

Learners can study in their own country before progressing onto universities in their own country, region or abroad to complete a degree, entering directly into third year. This option can be a cost effective route to studying abroad and achieving a degree at an international Higher Education Institution.

We make this journey as smooth as possible through our Diploma to Degree programme. SQA has collaborated and set up articulation agreements with a number of highly regarded international institutions in countries such as the UK, USA, Australia, Canada and New Zealand covering various progression models including online delivery.

These institutions recognise the SQA Advanced Diploma for advanced entry and provide students with a quality learning experience.

Advanced Diploma in Business

The SQA Advanced Diploma in Business and AAS College provide learners with a progression route into employment. The Advanced Diploma covers the main aspects of international business including management, human resources, economics and administration. It will equip students with an awareness of key issues and practices within a changing business environment.

There is a growing demand for businesses to demonstrate corporate social responsibility. Business management strategies that affect profit and society are achieving successful and sustainable results.

Aims:

The SQA Advanced Diploma in Business has a range of aims relating to academic and vocational progression. These are to:

1. Develop suitable competencies to enter a range of administrative, commercial or managerial positions.
2. Develop student competencies to support their career aspirations.
3. Prepare students for progression to degree courses delivered by universities.
4. Develop skills for independent, lifelong learning.

5. Develop and enhance transferable skills for employability and Core Skills.
6. Develop and enhance transferable skills in planning, organizing, critical and evaluative thinking and enable the candidate to investigate business issues and problems in depth.
7. Develop intrapersonal and interpersonal skills relevant to a range of administrative, commercial or managerial positions in business organizations.
8. Develop communication and presentation skills.
9. Adopt an innovative and creative approach and be able to respond quickly to challenges posed by changes in the business environment.
10. Develop the ability to work flexibly and co-operatively with others.

Advanced Diploma in Computing

The SQA Advanced Diploma in Computing: Technical Support and AAS College provide learners with a progression route into employment. This SQA Advanced Diploma covers a range of specialist technical skills and knowledge in using and supporting computer systems.

It will give learners vocational and technical computing skills that will enable them to work in an IT-related role.

The course covers all the fundamental aspects of technical support, including in-depth knowledge of operating systems, networks, hardware, and software development — as well as professionalism, ethics and team working in computing.

Aims:

The SQA Advanced Diploma in Computing: Technical Support award has a range of aims relating to academic and vocational progression. The principal aim of the award is to prepare the candidates for employment in IT technical support. The general aims of this award are to:

1. Develop candidates' knowledge and skills in planning, developing and evaluating.
2. Develop employment skills, particularly relating to the IT industry.

3. Enable progression within the SCQF.
4. Develop study and research skills.
5. Develop learning and transferable skills (including Core Skills).
6. Support candidates' continuing professional development.
7. Update the contents of the award to reflect current professional practices and technologies.
8. Update the contents of the award to incorporate best practice in assessment, including a reduction in time spent on assessment and maximizing the use of e-assessment.
9. Maximize flexibility (while maintaining coherence) in qualification design to permit centers to customize the award to their local needs.
10. Reduce the academic level of the award (in terms of SCQF levels).
11. Produce Units that are able to embrace external changes without regular updates.

Advanced Professional Diploma in Interior Design

The course provides an excellent opportunity to support the international growing creative industries and construction sector economy and to provide potential applicants with dynamic and vocational study opportunity.

By studying Interior Design at AAS College graduates will be with knowledge and understanding along with skill sets, attributes and behaviours that provide them the potential to be an effective contributor in the global community of Interior Design including event design, set design and consultancy practices.

To achieve this the course embraces a distinctive focussed study upon human needs and desires in a consumerist society. Throughout the course, students are encouraged to build upon the understanding of the importance of being socially and culturally aware as a designer, becoming conscious of their potential influence and need to embrace ethically considered practices and apply considered personal as well as professional codes.

Aims:

The programme aims to provide students with Interior Design skill-sets generally comprise of both intellectual and practical skills:

Practical skills

- Visual communication skills – through drawing, making, or digital manipulation
- Visual appreciation skills
- Understanding and manipulation of materials and processes particular to Interior Design

Intellectual skills

- Lateral thinking, conceptual thinking, analytical thinking, the ability to hold multiple and potentially contradictory possibilities in mind simultaneously
- Social, historical, cultural and political awareness
- Enhanced perception and observation skills – an inclusive approach to research
- The ability to generate ideas: creativity

Advanced Certificate in Foundation Art & Design

If you want to study a Design programme but you have not completed 12 years in secondary education or you cannot provide a Design portfolio, this course is ideal for you. Successful completion of it is a guarantee to get admission in year 1 of Bachelor in Design area programmes.

The Foundation of Art and Design course at AAS College has five principal aims:

- To provide opportunities for the students to enhance their experience and understanding of all areas of art and design
- To introduce students methods to expand their creativity and teach them lateral and creative thinking
- To introduce students to their chosen area of study and its specialist methods and demands
- To enable students to reach the standards of written and spoken English required in undertaking a degree course franchised by a British University
- To familiarize students with the city of Thessaloniki and the Greek culture and civilization through site and museum visits

This high quality course is designed as a principle pathway to Higher Education in art and design.

During the course students will experiment with areas of generic importance to all subjects in design, including drawing, computing skills, visual communication, photography, three dimensional design, illustration, materials and processes as well as art and design history.

In the foundation course of art and design, teaching and learning focuses on project work in the studios and workshops. This is enhanced by research, contextual studies, art and design history, and self-directed study.

Admissions

How to apply

You should apply direct to the AAS College. We accept applications throughout the year, but advise you to apply early. We would like to receive application forms before 30th of June.

All candidates are required to submit the following documents:

1. A Fully Completed Application

- AAS Application Form completed
- A scanned copy of your passport

2. English language certificate

Certified Photocopy of English Language qualification(s).

Undergraduate applicants must have a fluent command of the English language which can be proven via the following examinations:

TOEFL: paper based 550 / computer based 213 / Internet based 79-80 or

IELTS: 6,0 or other equivalent qualifications.

Candidates who have not acquired an English language qualification at the time of the submission of their application form are required to submit it at least one month before the commencement of the course.

3. Diploma of previous education

International Baccalaureate (IB) Diploma or six IB Subject Certificates, or A Levels obtained locally

Certified Photocopy of the Diploma of Secondary Education (High School Diploma), along with the final year's academic transcript

Candidates who have not yet graduated from high school at the time of application, should submit the available academic transcripts from their current year of study, as well as a full transcript from the previous year of study

If the High School Diploma is produced in another language it should be translated and verified in English

our response

A member of our staff will contact you in 48 hours.

AAS offer to you

Deciding to start study is an exciting time but the process to actually get there can seem daunting. That's where we can help. Here's what you need to be finding out about now.

Over the next few weeks we'll be sending you lots of important information, so if any of your contact details change, we need to know as soon as possible. Please let us know if you change your: Name – Address – Phone number – Email address – Passport number

We pride ourselves on the tailored support we offer to all our students and we want your application and enrolment to go as smoothly as possible. If you have any problems at all, we are here to help.

You will receive an unconditional offer: An Admission Letter by college's Admissions Office, or a conditional offer: that means that before the commencing of your interested course you have to submit some documents, or a rejection letter: that means that you don't cover the requirements of the interested course.

Visa Process

The following documents to be submitted by all non-EU students to the Greek Embassy or Consulate Office closer to you:

- Application form for a visa for a long stay in Greece, fully filled in and signed by the applicant
- One recent passport-size photograph in colour
- Passport that should be of a validity exceeding by three months the ending date of the visa length, include at least two blank pages and have been issued

within the previous 10 years

- Police Clearance Certificate (Criminal record)
- Medical Certificate
- Travel insurance
- Admission letter by AAS
- A confirmation document by AAS that you are a college's student
- Document by the Ministry of Education that the AAS College holds a valid license and is registered in the relevant records
- English language Certificate
- Proof of sufficient funds to cover living expenses and AAS tuition fees in Greece
- Visa fee

You should also have in mind the following:

Original documents and passports submitted must be accompanied along with a copy.

All documents submitted must be in English or Greek

You may be asked for additional documents and will be called to a personal interview at the Embassy or Consulate Office (the requirements of Greek Embassies or Consulate Offices aren't the same from country to country)

The visa fee is not refunded if the visa is refused.

Accommodation

Going to live and study in another country is very exciting; it can also be very challenging. At the AAS we have experience of welcoming foreign students and we are here to help you every step of the way. We know that you will have a lot of questions before you leave home and this information has been prepared to help answer as many of your questions as possible.

We recognise that when you join us it may be the first time you have lived away from home, so we do our best to support you. Our accommodation staff will help you to find the right place to live to suit your needs. We can advise you for a lot of flats in purpose-build properties that there are very close to the college or in the city's centre.

In all type of flats you will have your own furnished study bedroom. There are flats where you have your own kitchen and flats that have a shared kitchen and dining area. Prices are around 200-300 euros/month.

The student accommodation staff will assist all international students in seeking the accommodation of their choice, giving legal tenancy agreement advice and all other queries or concerns regarding student accommodation in Thessaloniki.

What to bring

Please remember that you will have to carry your luggage during your journey here, so do not pack more than you can carry by yourself. On the other hand Thessaloniki has an extensive range of shops supplying food from all over the world and clothes and other good to suit all tastes, so there is no need to bring too much baggage.

Hand luggage

You should carry the following items in your hand luggage:

- Your passport and Visa card (leave a photocopy of them with your family/friends at home)
- Contact names and telephone numbers for AAS College
- Original academic certificates and transcripts
- Tuition fee receipt
- Copy of bank transfer document
- Euros currency (do not put money in your suitcase)
- Any medication you need during your journey, having first checked that it can be taken in your hand luggage

Please tell us what time and day you will be arriving in Thessaloniki, so we can give you the greatest possible help.

AAS support

Making
living easy

City of Thessaloniki

Welcome to Thessaloniki
a friendly, safe and economical choice for you to come and study.

AAS is found in Thessaloniki. A coastal city in the Northern Greece, with sunny Mediterranean climate. Thessaloniki is a friendly, inspiring city with a great ancient history and a vibrant student community. It is a lively city packed with cafes, clubs, restaurants, museums, galleries, cinemas, theatres and concert halls where a lot of cultural events and festivals are organized throughout the year.

Greece has a very long and significant history. It is the motherland of philosophy, classical arts, theatre and medicine among others. A great number of philosophers like Socrates, Plato, Aristophanes the comic play writer, Hippocrates the father of western medicine were born and lived there. Their work effected the western civilization and put the base for the evolution and development of modern contemporary thought.

All over Greece, you can visit a great number of museums, archaeological sites and monuments that provide a vivid picture of its accomplishments in art and technology from the prehistoric era to modern times. Greece cultural achievements and beautiful landscapes get admired by thousands of visitors each year who choose it as their destination for vacations or studies.

The second largest city of Greece and the most important port of the Balkan is Thessaloniki. Built by the sea it is located in the northern Greece. It has sunny Mediterranean climate and wonderful beaches. Thessaloniki is a friendly, inspiring city with large avenues, commercial streets, parks, squares, picturesque traditional neighbourhoods and a vivid student community of more than 100.000 students. Motherland of Alexander the Great and Aristotle Thessaloniki's history goes back more than 2.300 years. The city is full of archaeological, byzantine and ottoman monuments that are within walking distance from the city centre. Thessaloniki also has a great number of cafes, clubs, restaurants, museums, galleries, cinemas, theatres and concert halls where a lot of cultural events and festivals are organized throughout the year. The International Film Festival, the Song Festival is just some of them. It is a city of design and fine arts where a lot of young artists, architects and designers always find new ways to express themselves. The city has also one of the best high streets market in Greece with shopping centres and boutiques. Thessaloniki is famous for its great cuisine and sweets. Anywhere in the city, you can enjoy very tasty food at very good prices. It is a friendly, safe and economical choice for you to come and study.

Where we are

If you have any questions about any of our courses or have a general enquiry, please get in contact using the details below.

If you're interested in visiting us, you can register for one of our many Open Days throughout the year. We can even organise a special personal tour of our studio spaces and workshops.

If you would like to request a call back please let us know two telephone numbers and a couple of convenient times during working hours that we can get in touch.

We look forward to hearing from you.
